JavaOne SESSION PRESENTS JAVA 7 ENHANCEMENTS TO OSGi API

Who: JavaOne(TM) attendees who use or are interested in usingOSGi™ technology

What: “Upgrading OSGi” Session TS-4966

This session presents the results of a prototype OSGi framework that provides a modernized API for bundles while still providing backward compatibility with bundles bound to the current API. Presenters will explain how the OSGi API can be enhanced by use of Java 7 platform features. Speakers B.J. Hargrave, IBM, and Peter Kriens, aQute, produced the prototype OSGi framework.

Additionally, a birds of a feather (BOF) meeting, is scheduled for OSGi users Thursday, June 4, at 8:30 p.m. in Hall E 133.

When: Wednesday, June 3
1:30 – 2:30 p.m.

Where: Hall E 134
Moscone Center
San Francisco, Calif.

How: Register at <http://java.sun.com/javaone/2009/registration.jsp>
