

MEDIA ADVISORY

ECLIPSECON™ 2007 FEATURES OSGI TECHNOLOGY “UNIVERSAL MIDDLEWARE” DEVELOPERS TRACK

- WHO:** Developers who need to know more about the industry-leading componentization and modularization technology for Java™.
- WHAT:** Special all-OSGi track at EclipseCon 2007:
Used as the basis for the Eclipse Runtime, OSGi technology is universal middleware. It provides a service-oriented, component-based environment for developers and offers standardized ways to manage the software cycle.
- WHEN:** March 5-8, 2007
- WHERE:** Santa Clara Convention Center
5001 Great America Parkway
Santa Clara, CA 95054
- HOW:** Register at
