JAX London – Bringing a unique conference experience to the British capital

London - JAX, the leading conference for Java, Enterprise Architectures and Agile in continental Europe and Asia since its successful conception in 2001 is debuting in London (www.jaxlondon.com), one of the most vibrant centres for business and cultural inspiration.

JAX London 2010 will take place on three days and offer its attendees an extremely attractive price model. Delegates will be treated to a host of technical presentations and tutorials that present in-depth knowledge on the latest technologies and practical implementation techniques.

Organised by the renowned IT media company S&S Media Group, JAX London 2010 will be hosted at the Novotel London West from 22-24 February 2010, providing an ideal forum for software developers, project managers, architects and decision-makers to learn about the latest technologies, architecture and agile methodologies. JAX London 2010 brings together the masterminds of the IT industry eager to share their knowledge, answer questions and stimulate discussions on a slew of current topics affecting the IT industry.

At the accompanying Expo (February 23-24), first-class companies will present their technologies and services. In addition to a host of papers and keynotes, JAX London will offer excellent networking opportunities. Over its successful history JAX has partnered with some of the most important software powerhouses, including Oracle, Microsoft, IBM, SAP, Sun Microsystems and Software AG.

“The JAX Conferences have an integrated approach focusing on all the relevant topics and technologies that are required in modern enterprise IT. JAX London 2010 will certainly provide you with valuable inspirations for your enterprise software strategy and your business.” says Sebastian Meyen, Programme Chair of the worldwide JAX conferences “We are also more than happy that, together with the OSGi Alliance, we are able to present the official OSGi Devcon London.”
“The OSGi Alliance is pleased to bring OSGi DevCon to London following its initial European DevCon in Zurich earlier this year. We’ve extended the popular developers’ conference to Europe in response to community demand for programmes and tutorials on the OSGi Service Platform,” says Stan Moyer, President of the OSGi Alliance. “We are excited to run OSGi DevCon London in conjunction with JAX London and anticipate announcing the program and tutorial topics later this year,” said Christer Larsson, OSGi Alliance Vice President of EMEA.
